Beyond that, their influence extends to the broader community and industry, enriching the professional landscape for everyone involved.*

### **Job Description:**

*We're looking for a talented and driven **Actuarial Analyst** to join our Actuarial Function at MBPS. In this role, you will work closely with our Actuarial team to collect, analyze, and interpret data that drive key business decisions. With our team's long-established history of success, you will be embark on a rewarding and engaging career path that exposes you to different facets of our global organization.*

*Have the skills and knowledge for the job? Learn more about the opening below!*

***NOTE:*** *The final job title and level you receive will be dependent on your years of experience and your interviews during the application process.*

### **Key Responsibilities:**

- Collaborate with our skilled team of actuaries to support the company's strategic data analysis, risk assessment, and business planning.
- Support the business in tasks that may include the following:
  - Pricing
  - Portfolio Modeling
  - Asset Modeling
  - Valuation
- Collaborate cross-functionally to ensure precise financial projections, optimal pricing strategies, and effective risk-management solutions.
- Drive innovation by staying at the forefront of industry trends, regulatory shifts, and technological advancements.

### **Qualifications:**

- Bachelor's Degree in Actuarial Science, Mathematics, Statistics, Finance or related field
- At least 1 year of actuarial work experience in Insurance or Financial Services. Fresh graduates are welcome to apply and will be considered for the Actuarial Assistant role.

- Progress towards attaining a designation in any recognized actuarial organization (SOA, ASP)
- Working experience in MS Office (Excel, VBA, Access), GGY AXIS, SQL, Qlikview, Python or similar program is a plus
- Proven analytical and problem-solving skills with the ability to gather, synthesize, organize, and report information, results, and recommendations to various levels across the organization
- Strong ability to establish priorities and manage multiple tasks with accuracy and attention to detail
- Able to work in an evolving and dynamic environment
- Strong communication skills with the ability to build camaraderie across levels and business functions
- Passion to grow and driven to be recognized as a trusted business partner.

***Ready to join our high-performing team of Actuarial experts? Apply today!***
